

TRANSIT IS A 3-YEAR ERASMUS+ PROJECT STARTED IN JANUARY 2021 AND INVOLVES SEVEN PARTNERS FROM FOUR COUNTRIES: ITALY, SWEDEN, GREECE AND SPAIN.

The project TRANSIT aims at raising awareness, while stimulating behavioural change, about sustainable mobility through the development of informal training paths for workers, families, and young adults, by stressing the importance of using more sustainable means of transportations as part of broader efforts at EU level towards the creation of a more sustainable and healthier society.

TRAINING PATHS FOR ADULTS ON SUSTAINABLE MOBILITY

Magnus Lindh

Karlstad University (Sweden)

Co-funded by the
Erasmus+ Programme
of the European Union

SPECIFIC OBJECTIVES

To develop innovative learning methods through which local civil servants and decision makers could bring about change in the attitude of citizens, in particular workers, families and young adults in relation to the theme of sustainable mobility.

To create informal learning opportunities among workers, families and young adults, aimed at increasing knowledge on environmental challenges, in particular the mobility challenge, and related solutions applicable at local level

To promote a behavioural change among adult learners by rising awareness and engaging them in positive actions pertaining sustainable mobility.

THE PROJECT WILL DEVELOP THREE OUTPUTS

1

A **BACKGROUND ANALYSIS** of the knowledge of partner countries on sustainable mobility and its related issues at local level.

2

Two **E-LEARNING MODULES** aimed at training civil servants and local biking and environmental associations.

3

A **TOOLBOX** that will collect all the tools needed for raising awareness and educate citizens on sustainable mobility habits.
